

FCC's Environmental Justice Newsletter

Winter Edition, February 2022

**JOIN US AT REPAIR CAFE
SATURDAY, 2/26 FROM
9:30 - 12:30PM**

**DECARBONIZATION
TASKFORCE**

Southern New England Conference
United Church of Christ

Do you have a special pair of jeans or sweater that needs mending, a lamp in need of repair, a bicycle that needs attention or kitchen knives that could use sharpening?

Come and be a part of the sustainability movement and community by repairing and restoring rather than adding to landfills....while making new friends along the way!

A link for Signup Genius can be found [here](#).

As charged by our church's Leadership Team (LT), a Decarbonization Taskforce has been assembled to put FCC on the path towards clean energy. Recognizing that reducing carbon emissions is a moral imperative, FCC is being summoned to the challenge to become a campus run solely on electrical power.

But what is especially promising, is that FCC is joining with the Town of Winchester and other like minded faith communities, and businesses to join together in switching over to green electricity. We are heartened that aside from talented lay leaders within FCC, Winchester's Sustainability Director, Ken Pruitt, is helping guide our efforts.

SNEUCC's Super Saturday Event will be featured virtually on March 19, 2022 from 8:30 - 2:30pm.

We are pleased to announce that Rev. Will Burhans, will be a guest speaker at one of the featured workshops, speaking to the necessity for Christians to exercise Love of Neighbor AND Love of God. Sign up at [this link](#). The workshop featuring Will, is called, "Living Out the Gospel in Each and Every Election."
